The Stayton Management's Discussion and Analysis

Overview:

Tarrant County Senior Living Center, Inc., d/b/a The Stayton at Museum Way (“The Stayton”) is a Texas not-for-profit corporation. The Stayton was formed for the purpose of constructing, owning and operating a continuing care retirement community in Fort Worth, Texas, known as The Stayton at Museum Way, providing housing, health care and other related services to its residents. Lifespace Communities, Inc. (“Lifespace”) an Iowa not-for-profit corporation, is the sole member of The Stayton.

The Stayton failed to meet the debt service coverage ratio covenant at June 30 and December 31, 2021. As the debt service coverage ratio is less than 1.0 at December 31, 2021, this is considered an event of default under the Master Trust Indenture. The Stayton has retained FTI Consulting, Inc. to, among other things, (i) evaluate operations and marketing strategies; and (ii) provide strategic advice on addressing financial issues. Additionally, The Stayton had previously retained Sidley Austin LLP as legal counsel. The Stayton has made the decision to change legal counsel to Polsinelli PC.

Effective March 1, 2022, UMB Bank N.A. resigned as bond trustee, master trustee, paying agent, registrar and transfer agent and BOKF, N.A. has been appointed successor bond trustee, master trustee, paying agent, registrar and transfer agent under the Master Trust Indenture and the Indenture of Trust.

On May 17, 2022, The Stayton filed a material event notice on EMMA that it has taken, or intends to take, various actions to preserve its cash position, to strengthen its future operations and to ensure continued interest from prospective residents in its community.

On June 22, 2022, The Stayton filed a material event notice on EMMA stating the failure to make the required June 15, 2022 deposit of \$538,000 with the Bond Trustee, for deposit into the Bond Fund, as required by the Loan Agreement. The Stayton also failed to make the required July 15, 2022 deposit with the Bond Trustee. Restructuring professionals for The Stayton and its financial stakeholders have been working to develop a mutually agreeable forbearance agreement.

As of the date of filing this report, The Stayton currently has six warm and four hot leads. Throughout 2022 The Stayton plans to host a combination of educational and lifestyle events. In July, The Stayton will host a fashion show highlighting the residents. The Stayton will continue to hold smaller lead nurturing events and plans on increasing the use of social media to share the lifestyle at The Stayton.

Calendar year-end financial information for December 31, 2020 and prior is provided from audited financial statements. All other financial information is obtained from unaudited financial statements.

**The Stayton
Management's Discussion and Analysis**

Six Months Ended June 30, 2022 versus Six Months Ended June 30, 2021:

The average year-to-date independent living occupancy through June 30, 2022, was 168.6 independent living homes (89.7% of the 188 available homes). The average year-to-date occupancy through June 30, 2021 was 170.8 independent living homes (90.8% of the 188 available homes).

Revenues from independent living monthly fees and related charges amounted to \$5,637,000 for the six months ended June 30, 2022, a 6.6% increase from \$5,286,000 for the same revenue sources for the same period in 2021. The increase is driven by monthly fee increases of 6.0% that were effective January 1, 2022 and less hardship discounts.

Revenues from the health center, assisted living, and memory support fees were \$4,946,000 for the six months ended June 30, 2022 compared to \$4,712,000 for the same period in 2021, an increase of 5.0%. The increase is driven by monthly fee increases of 6.0% that were effective January 1, 2022 and offset by the increase in hardship discounts.

In the second quarter of 2022, The Stayton received \$75,000 in nursing facilities COVID relief funds from The State of Texas. The Department of Health and Human Services continues to update guidance regarding the distribution of these funds.

Total operating expenses, excluding depreciation and interest expense, were \$9,511,000 for the six months ended June 30, 2022, an increase of \$1,271,000 or 15.4% from comparable expenses of \$8,240,000 for the same period in 2021. Salaries and benefits increased \$483,000 or 12.7% for the six-month period, as compared to the same period in 2021, due to wage increases for culinary, nursing and housekeeping team members that took effect November 1, 2021 and increases for all other positions that took effect January 1, 2022. General and administrative expense increased \$306,000 or 11.9% due to financing related costs. Dietary expense increased \$313,000 or 35.5% for the six-month period, as compared to the same period in 2021, as a result of increases in raw food costs. Medical and other resident care increased \$170,000 or 74.6% for the six-month period, as compared to the same period in 2021, due to an increase in agency costs.

**The Stayton
Management's Discussion and Analysis**

Six Months Ended June 30, 2022 Actual versus Budget:

The Board of Directors annually approves the budget. The chart below shows line item comparisons to the board approved net operating margin, net entrance fees and capital expenditures for the period, along with the favorable and unfavorable variances.

(in thousands)	Actual	Budget	Favorable/ (Unfavorable)
Revenues			
Independent Living Fees	\$5,637	\$5,454	\$183
Skilled nursing, assisted living and memory support fees	4,946	5,163	(217)
Other	75	-	75
	10,658	10,617	41
Expenses			
Operating expenses:			
Salaries and benefits	4,292	4,799	507
General and administrative	2,878	2,307	(571)
Plant operations	708	655	(53)
Housekeeping	40	119	79
Dietary	1,195	984	(211)
Medical and other resident care	398	302	(96)
	9,511	9,166	(345)
Net operating margin	1,147	1,451	(304)
Net entrance fees	1,927	(4,616)	6,543
Capital expenditures	1,115	5,831	4,716

Net operating margin is unfavorable to budget by \$304,000.

Independent Living Fees revenue is favorable to budget by \$183,000 or 3.4% due to occupancy. The average year to date independent living occupancy is 89.7% while the budget is 86.3%.

Skilled nursing, assisted living and memory support revenue is unfavorable to budget by \$217,000 or 4.2% due to more hardship discounts than were budgeted.

Salaries and benefits costs are favorable to budget by \$507,000, or 10.6%, due to open positions.

General and administrative costs are unfavorable to budget by \$571,000 or 24.8% due to financing related costs.

Plant operation costs are unfavorable to budget by \$53,000 or 8.1% due to more repairs and maintenance.

The Stayton Management's Discussion and Analysis

Housekeeping costs are favorable to budget by \$79,000 or 66.4% due to less consulting or outsourcing fees and repairs and maintenance than budgeted.

Dietary costs are unfavorable to budget by \$211,000 or 21.4% due to higher raw food costs and agency costs.

Medical and other resident care costs are unfavorable to budget by \$96,000 or 31.8% due to agency costs that were not budgeted.

Net entrance fees are favorable to budget by \$6,543,000. For the six months ended June 30, 2022, there were seven closings for actual and budget. The Stayton pays out refunds in the order of the refund queue. The timing of refunds according to the queue heavily influences the net entrance fees.

Commencing in February 2022, The Stayton has entered into agreements with incoming residents so that their deposits are refundable in full, and the segregated funds have been or will be placed in escrow, until The Stayton resolves its defaults under the Master Trust Indenture. The result is that The Stayton is not receiving the entrance fees at this time from which it can pay refunds, but The Stayton hopes to be receiving entrance fees again soon.

Capital expenditures are favorable to budget by \$4,716,000 as a result of timing.

Ratios:

Lifespace uses the Fitch investment grade medians as benchmarks. The ratios for both the investment grade and the BBB ratings are shown in the footnote to the ratio calculation schedule.

On January 3, 2020, The Stayton completed a bond exchange of its Series 2009 Bonds for new Series 2020 Bonds issued in the amount of \$112,261,000. The Series 2020 Bonds bear interest at 5.75%, have a final maturity in 2054 and are interest only through 2024. Annual debt service in 2022 is \$6,455,000. Maximum annual debt service is \$7,520,000.

The Series 2020 Bonds have an occupancy covenant, historical debt service coverage ratio covenant and a liquidity covenant. The occupancy covenant is 88% independent living apartments and is tested quarterly. The testing dates for the debt service coverage ratio and the liquidity covenant are June 30 and December 31 and began on June 30, 2021. The debt service coverage ratio covenant level is 1.10 for the first two testing dates and 1.20 thereafter. The liquidity covenant level is 120 days cash on hand. Calculation of days cash on hand includes amounts available from the \$6.0 million liquidity support agreement provided by Lifespace. At June 30, 2022, The Stayton continues to be in compliance with the occupancy covenant. The Stayton was in compliance with the liquidity covenant until June 30, 2022. As the debt service coverage ratio is less than 1.0 at December 31, 2021, this is considered an event of default under the Master Trust Indenture. The Stayton remains at a debt service coverage ratio that is less than 1.0 at June 30, 2022.

**The Stayton
Management's Discussion and Analysis**

Liquidity and Capital Requirements – Six Months Ended June 30, 2022 versus Six Months Ended June 30, 2021:

Cash proceeds from entrance fees and deposits (refundable and non-refundable), net of refunds, were \$1,927,000 in 2022 compared to \$192,000 in 2021. There were seven closings for the six months ended June 30, 2022 and six closings for the same period ended 2021. The Stayton pays out refunds in the order of the refund queue. The timing of refunds according to the queue heavily influences the net entrance fees. Of the cash proceeds for the six months ended June 30, 2022, \$4,635,000 are segregated and are not available for payment of the refund queue.

Daily operating expenses for June 30, 2022 increased to \$70,000 from \$65,000 for June 30, 2021, a change of 8.1%. The overall unrestricted cash position decreased from \$4,587,000 at June 30, 2021 to \$1,756,000 at June 30, 2022, a change of 61.7%.

No amounts have been drawn on the \$6 million liquidity support agreement provided by Lifespace as of June 30, 2022.

Capital expenditures for the community for the six months ended June 30, 2022 were \$1,115,000, while depreciation expense for the same period was \$1,846,000. Capital expenditures for the community for the six months ended June 30, 2021 were \$242,000, while depreciation expense for the same period was \$1,879,000.

To evaluate the financial aspect of the needed re-investment in the community, Lifespace management targets capital expenditures for all communities it manages as a percentage of depreciation in the range of 70% to 130%. This ratio is monitored on a 5-year historical view to assist with the annual capital expenditure decisions. The 5-year historical ratio for The Stayton at December 31, 2021 is 18% and falls well below the targeted range of Lifespace guidelines. It is not unusual to fall below the 70% of depreciation for a community that has been in service less than 15 years. Routine capital projects are expected to be funded from internal cash flows.

Forward-Looking Statements:

This document contains various “forward-looking statements”. Forward-looking statements represent our expectations or beliefs concerning future events. The words “plan”, “expect” “estimate” “budget” and similar expressions are intended to identify forward-looking statements. We caution that these statements are further qualified by important factors that could cause actual results to differ materially from those in the forward-looking statements, including without limitations the factors described in this document.

We ask you not to place undue reliance on such forward-looking statements because they speak only of our views as of the statement dates. Although we have attempted to list the important factors that presently affect The Stayton’s business and operating results, we further caution you that other factors may in the future prove to be important in affecting The Stayton’s results of operations. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.
